Experience

Lead UX / Product Designer — **Dublin, Ireland**

Jobin.cloud — Jan 2024 – Present

- Drove a 25% increase in user activation by leading the end-to-end redesign of the core SaaS dashboard — validated through stakeholder feedback and iterative usability testing.
- Architected a design system of 5,000+ components in Figma, cutting design iteration time significantly and establishing a single source of truth across design and engineering.
- Partnered directly with 4 engineers to translate Figma prototypes into production-ready React and Tailwind components, reducing design-to-dev handoff friction.
- Ran continuous design sprints and usability testing cycles, improving task discoverability and measurably increasing workflow efficiency across the product.

Product Designer — **London, U.K**

ERCAS — Aug 2015 – Mar 2024

- Designed interfaces across 4 core products — ERCAS Pay, ERCAS Collect, ERCAS POS, and a USSD payment processing platform — serving over 10 million users across 7 Nigerian state governments including Kaduna, Abuja, Benue, Rivers, Plateau, Kano, and Enugu.
- Led UX for a client onboarding platform used by enterprise and government stakeholders, conducting workshops and usability studies to align product decisions with real user needs.
- Delivered WCAG-compliant front-end designs in close collaboration with developers, ensuring accessibility and scalability across all government-facing platforms.
- Supported full product lifecycle from research and prototyping through to final front-end implementation across payments, collections, and e-service platforms.

Web Designer — **Remote**

NaliTech Consults — Apr 2020 – Dec 2023

- Delivered 40+ client projects from wireframe to live deployment, maintaining consistent UX standards and brand identity across every engagement.
- Retained and grew repeat business with clients including Salongrid, Manueltech, and Klug & Heimer — demonstrating consistent delivery quality and client trust.
- Introduced component-based design workflows that reduced design-to-dev delivery time by an estimated 30% across projects.
- Built and customised websites using WordPress, Webflow, Framer, and custom HTML/CSS/JS — adapting to each client's stack and requirements.

Education

Federal Polytechnic Nassarawa — 2010

Computer Science

Skills

Design: Figma, Sketch, Adobe XD, Framer, Miro
Front-End: HTML5, CSS3, JavaScript, React, Tailwind, WordPress
UX: User Research, Wireframing, Prototyping, Usability Testing, Design Systems, Accessibility
Tools: Git, Notion, Jira, Confluence, Maze, Miro, Insight Analytics, ChatGPT, v0, Loveable, Perplexity
